Invitation

6th Symposium on “New Therapeutic Aspects for Osteoporotic Vertebral Fractures“

30 September - 02 October 2011,
Budapest, Hungary

medi

medi. I feel better.

6th Symposium on “New Therapeutic Aspects for Osteoporotic Vertebral Fractures”

Dear Colleagues,

We have pleasure in announcing the 6th Symposium on “New Therapeutic Aspects for Osteoporotic Vertebral Fractures”.

Our previous symposia have shown that there is a clear need for discussion on the various therapies and for exchanging experience in the field of stable vertebral fractures.

We are happy to welcome speakers from all over Europe and the United States. The great variety of topics will open the door to interesting discussions.

The symposium will take place at the Hilton Budapest, situated in the heart of the historic Royal Castle District – a UNESCO World Heritage Site – with spectacular panoramic views towards the River Danube, the Hungarian Parliament and Margaret Island.

The symposium is being sponsored by medi.

Scientific Chairman

Prof. Helmut W. Minne

Friday, 30 September 2011

19:00 - 20:00	Scientific Session I
	Helmut W. Minne, M.D. Welcome and Introduction: Social Aspects and Burden of Disease
